FOREWORD

The ASEAN Community in Figures (ACIF) 2012 is now on its 5th year of publication. As in the previous editions, the ACIF 2012 features key economic and social developments in individual ASEAN Member States and in the ASEAN region.

This handy pocket reference is a compendium of selected economic and social indicators from 2005 to 2011 presented in more than 50 tables and charts. It is designed to be easily consulted and to provide quick answers on ASEAN's general economy, trade and foreign direct investment, tourism, telecommunications, population, labor force, and social development. The ACIF 2012 also contains brief interpretation of the trends as shown by the tables and charts.

With the establishment of the ASEAN Community Statistical System (ACSS) Committee in November 2011, it is hoped that the subsequent issues of the ACIF will feature more areas on statistics and higher level of information can be provided by the ASEAN Member States.

I would like to commend the ten Member States for their hard work in producing comparable, high-quality, and timely statistics as we move forward to an ASEAN Community by 2015.

I also would like to encourage our users to continue to provide us their comments and feedback in order to further improve this publication in our continuing effort to deliver high-quality products and services at the ASEAN Secretariat.

Thank you for all your support for the improvement of ASEAN statistics!

Le Luong Minh
Secretary-General of ASEAN

1/ Myanmar: US\$-Kyat exchange rate is based on the parallel rate used in IMF-WEO April 2012

2/ GDP per capita in PPP\$ is GDP converted to international dollars using purchasing power parity (PPP) rates. PPP dollar takes into account the differences in the purchasing power of the US dollar in the countries. PPP \$1 in a country, say Cambodia has the same purchasing power as PPP \$1 in all other countries in the world.

3/ CLMV includes Cambodia, Lao PDR, Myanmar and Viet Nam.

4/ ASEAN6 consists of Brunei Darussalam, Indonesia, Malaysia, Philippines, Singapore and Thailand.

- » In 2011, most countries have reached stable growth after the global economic crisis in 2008. Among the ten Member States, only Myanmar recorded a double-digit growth while Thailand posted less than 1 percent, partially on account of the economic damage brought by the extreme weather events in the country during the period.
- » Cambodia, Lao PDR, Myanmar, and Viet Nam each posted above 5 percent growth contributing an average growth rate of 7 percent for CLMV as compared to the ASEAN6 average growth rate of 4.4 percent.
