

ACCSQ/WG 1 – MRAs and Standards

1. This document covers standards under Agenda item 6.1 on **Harmonised Standards for 20 Priority Products, Safety and EMC Standards**

The following are for consideration:

- Where there are no national standards, it is recommended that DIR be indicated.
- Brunei Darussalam, Cambodia, Lao PDR and Myanmar had since the 5th ACCSQ WG 3 (previously responsible for standards harmonisation) meeting indicated the direct use of all the international standards for the 20 priority products. In this template, DIR has been inserted where it does not appear and where there is no national standard. It is also recommended that this should apply to all other Member States
- Indonesia had introduced DNS (Draft National Standard) where there are impending national standards
- For consistency, all Member States are requested to provide the edition number of the International Standards that were adopted

2. **Status of the latest edition of IEC and ISO standards that are harmonised**

It was recommended that these be updated at every first WG1 meeting of the year.

INSTRUCTIONS TO COMPLETE TEMPLATE

To complete the template, **two categories** of information are required to be entered for each international standard.

Category 1

To indicate whether the respective international standard (and/or national adoption of the international standard) is referred to in a regulation or if it is used for government procurement. **If neither, this category need not be filled.**

REG if the specific international standard or national standard is used in regulation OR
GOV if it is indicated for government procurement

Category 2

To indicate whether the international standard is used DIRECTLY (**DIR**) or an IDENTICAL (**IDT**) or MODIFIED (**MOD**) adoption. Where IDT or MOD does not apply, it must be filled in as DIR. For IDT and MOD, the edition adopted as a national standard must be indicated.

HARMONIZED STANDARDS UNDER WG1 TEMPLATE

CONTENTS

- RUBBER-BASED PRODUCT SECTOR
- ELECTROMAGNETIC COMPATIBILITY (EMC) STANDARDS
- ADDITIONAL EE PRODUCTS FOR HARMONISATION BY 2007

LEGEND

REG	Standards used in regulations
GOV	Standards used in government procurement
DIR	Direct use without adoption of the international standard as a national standard and no conflicting national standard
IDT / Ed. X	Identical adoption of the international standard / Edition no. of the international standard adopted
MOD / Ed. X	Modified adoption of the international standard / Edition no. of the international standard adopted
