#### **FOREWORD**

ASEAN Community in Figures (ACIF) 2009 is the second in a series of periodic statistical updates about the economies, peoples and societies of ASEAN Member States and, where applicable, of the ASEAN region as a whole. This publication features statistical information on key characteristics and trends in ASEAN's general economy, trade, investment, tourism, population, labour force, health, education and poverty.

Intended to be issued between the annual releases of the ASEAN Statistical Yearbook, the ACIF includes updates on selected indicators in the Yearbook.

The ACIF is purposely designed to be a handy publication, and hence presents only a selection of the most-sought-after or referred-to indicators for the last few years. For users' convenience it also provides short descriptions of key developments, as appropriate.

We appreciate and value your comments and suggestions in the improvement of this publication and of our other statistical products and services. Please contact ASEANstats at stats@asean.org if you have any feedback.

Secretary-General of ASEAN

- Notes : 1. Myanmar: US\$-Kyat exchange rate is based on the parallel rate as used in IMF-WEO April 2009
  - 2. The PPP dollar takes into account differences in purchasing power of the US dollar in the countries. Take GDP per capita of Thailand and Singapore as example: even if the GDP per capita of Thailand is only around one-ninth that of Singapore (\$4.117 compared to \$37.629), if the purchasing power of the US dollar is taken into account, the GDP per capita of Thailand would be around one-sixth of Singapore (\$8,218 compared to \$49,338), because one US dollar in Thailand can buy more goods and services than one US dollar in Singapore.

Sources - ASEAN Finance and Macroeconomic Surveillance Database and IMF-World Economic Outlook April 2009

The per capita GDP in CLMV is approximately US\$ 813, which is a quarter that of ASEAN6, which amounts to around US\$ 3,273. Viet Nam has experienced a good economic development and its per capita GDP for the first time reached US\$ 1,000.

CLMV's population and land area are about 28% of ASEAN; their economy size. however, is only less than 9% that of ASEAN.

- » ASEAN's population is nearly twice that of the USA, one-fifth more than that of EU27, more than 4 times that of Japan but only half of India's and less than half of China's population.
- » The ASEAN economy is less than one-third of Japan's, just above one-third of China's, and more than 10% of the USA's economy. If purchasing power parity is taken into account, ASEAN's economy in 2008 is almost one-fifth that of the USA and more than half that of Japan.

- » ASEAN trade reached US\$1.7 trillion in 2008, with intra-ASEAN trade amounting to US\$ 458 billion.
- » Total ASEAN trade grew by around 6%, with intra-ASEAN trade maintaining a constant share of around 25% until 2008 when it reaches 26.8% due to the much slower growth of the extra-ASEAN Trade.
- » Since 2006 trade as percentage of GDP decreased in line with the slower growth of both export and import than the growth of the nominal GDP.
- » ASEAN has been on trade surplus since 1998. Trade balance recorded at US\$ 109 billion in 2007, but declined to US\$ 48 billion in 2008.

The share of intra-ASEAN trade had increased from 21.0% in 1998 to 26.8% in 2008.

<sup>»</sup> Japan, EU25, China and USA were ASEAN's top four trading partners in 2008, each contributing around 11%-12% to ASEAN's total trade.

While the share of USA, EU25, and Japan had declined from 1998, the share of China's trade with ASEAN had increased from only 3.5% in 1998 to 11.3% in 2008

Source : ASEAN Tariff Database

The percentage of tariff lines in the CEPT inclusion list of CLMV have increased steadly, and progressively narrowing the gap between ASEAN6 and CLMV over the years. As of 2009, both ASEAN6 and CLMV have placed more than 98% of their tariff lines under the CEPT Scheme

\* CEPT - Common Effective Preferential Tariff

Source : ASEAN Tariff Database

The number of items in the CEPT inclusion list with zero tariff in ASEAN6 increased significantly in 2003 and continued to increase until 2009. The growth in CLMV was more modest. In percentage terms, the growth in ASEAN6 showed a break in 2005 and 2006; but it was due to the rapid increase of the number of items in the CEPT IL
