APPENDIX D

TECHNICAL FILES

The following documents shall be included in the Technical Files:

2. Test Report in English, attesting that there has been full compliance with the listed standards and harmonized regulatory requirements.

3. Full Electrical Wiring/Circuit Diagrams or Service Manual (Circuit diagrams shall indicate the component’s value, or in the alternative, a Bill of Material/ Part List).

4. Colored photographs showing exterior (whole, front, top and rear view of an EEE, nameplate, rating label, mains plugs etc) and interior (critical safety components) views.

5. Rating Label (original or clear photograph or artwork).

7. Record of Modification, if any.
