

## **ASEAN PETROLEUM SECURITY AGREEMENT**

The Governments of Brunei Darussalam, the Kingdom of Cambodia, the Republic of Indonesia, Lao People's Democratic Republic (Lao PDR), Malaysia, the Union of Myanmar, the Republic of the Philippines, the Republic of Singapore, the Kingdom of Thailand and the Socialist Republic of Viet Nam being members of the Association of Southeast Asian Nations, hereinafter refer to collectively as "ASEAN" or "ASEAN Member States", or individually, as "ASEAN Member State";

**RECALLING** the Agreement on ASEAN Energy Cooperation signed in Manila, Philippines, on 24<sup>th</sup> June 1986, which emphasized co-operation among the ASEAN Member States in developing energy resources to strengthen the economic resilience of the individual ASEAN Member States as well as solidarity and integrity of ASEAN;

**NOTING** the ASEAN Petroleum Security Agreement (APSA) 1986 signed in Manila, Philippines, on 24<sup>th</sup> June 1986, which established the ASEAN Emergency Petroleum Sharing Scheme for crude oil and/or petroleum products in times or circumstances of both shortages and oversupply;

**RECALLING** further the Protocol Amending the Agreement on ASEAN Energy Cooperation signed in Bangkok, Thailand on 15<sup>th</sup> December 1995, which provided for focused energy co-operation in ASEAN to pursue cooperative activities in various areas of energy;

**REALISING** that energy security and self-sufficiency can be achieved through national and multinational efforts geared towards indigenous energy resource exploration, development, exploitation, distribution and transportation,

and undertaken in a manner that both conserve the resources and preserve the environment and human habitat;

**NOTING** further that the importance of ASEAN energy co-operation was further underscored in the Bangkok Summit Declaration of 1995, which states that ASEAN shall ensure greater security and sustainability of energy through diversification, development and conservation of resources, the efficient use of energy, and the wider application of environmentally-sound technologies; and as reinforced in the ASEAN Second Informal Summit on 15<sup>th</sup> December 1997 in Kuala Lumpur, Malaysia, calling for cooperative activities aimed at establishing interconnecting arrangements for power and natural gas, among others, within ASEAN Power Grid (APG) and Trans-ASEAN Gas Pipeline (TAGP) Project;

**AWARE** that the development of the APG and the TAGP Project are two important Energy Programmes in the Hanoi Plan of Action endorsed by the ASEAN Heads of Government on 16<sup>th</sup> December 1988, the ASEAN Plan of Action for Energy Cooperation (APAEC) 1999-2004 adopted by the 17<sup>th</sup> ASEAN Ministers on Energy Meeting (AMEM) in Bangkok, Thailand on 3<sup>rd</sup> July 1999, and the APAEC 2004-2009 further adopted by the 22<sup>nd</sup> AMEM in Manila, Philippines on 9<sup>th</sup> June 2004, which had entrusted the responsibility of implementing the ASEAN Power Grid to the ASEAN Heads of Power Utilities and Authorities (HAPUA) and TAGP to the ASEAN Council on Petroleum (ASCOPE) through the auspices of the ASEAN Energy Ministers;

**MINDFUL** that ASEAN is increasingly becoming more dependent on petroleum resources outside the region, there is a need to recognise, coordinate and rationalise these efforts, plans and programmes to enhance security of petroleum supply for ASEAN Member States;

**AWARE** of the future threats and risks to the ASEAN security of petroleum supply coupled with the fact that some ASEAN Member States, which are now net oil exporters will

in the near future become net oil importers with high dependence on petroleum resources outside the region, particularly the Middle East;

**ALSO AWARE** that the ability to respond to an energy emergency situation in the ASEAN Member States can be greatly enhanced by ensuring the physical availability of oil and oil products through the establishment of stockpiles on voluntary and commercial basis;

**FURTHER AWARE** of the changes in global energy market landscape, including but not limited to deregulation and liberalisation, and the increasing global concerns on environmental issues;

**NOTING** that ASEAN energy security is the key to economic resilience and that the ASEAN Vision 2020 and the ASEAN Energy Co-operation were conceived in view of such consideration;

**REALISING** that a review of the APSA among ASEAN Member States is necessary to further strengthen the economic resilience of the individual ASEAN Member State as well as the solidarity and integrity of ASEAN;

**HAVE AGREED** on the following:

## **ARTICLE 1**

### **Objective**

The objective of this Agreement is to enhance petroleum security, either individually or collectively, and minimise exposure to an emergency situation, through the implementation of short, medium and long term measures as hereinafter provided.

## **ARTICLE 2**

### **Definitions**

For the purposes of this Agreement, the following definitions shall apply unless the context otherwise requires:

2.2 “Coordinated Emergency Response Measures” means the Coordinated Emergency Response Measures annexed as a Schedule to this Agreement and hereinafter referred to as “CERM”;

2.3 “Critical Shortage” refers to the situation when an ASEAN Member State in Distress is experiencing a shortfall of at least ten percent (10%) of the Normal Domestic Requirement for a continuous period of at least 30 days;

2.4 “Crude Oil” means oil extracted from bituminous shales and other rock formations before any such oil has been refined or otherwise treated and includes all Natural Gas Liquids and Condensates from Natural Gas;

2.5 “Emergency Situation” refers to a situation when an ASEAN Member State is faced with Critical Shortage in petroleum supply due to natural calamity (such as earthquake and tsunami), explosion of facilities or war only;

2.6 “Natural Gas” means a mixture of hydrocarbons and varying quantities of non-hydrocarbons that exist either in the gaseous phase or in association with Crude Oil in natural underground reservoirs and is classified as either Associated Gas or Non-Associated Gas;

2.7 “Normal Domestic Requirement” refers to the daily average domestic petroleum consumption over the twelve (12) months period immediately preceding the occurrence of the emergency situation;

2.8 “Oil Stockpile” refers to strategic crude oil and petroleum products stored in ground level storage tanks or underground storage tanks to be used for both operational and strategic reasons, and

2.9 “Petroleum” refers to crude oils, products and natural gas in its natural condition.

### **ARTICLE 3**

#### **Strategic Options to Enhance Petroleum Security**

3.1 The ASEAN Member States shall endeavour to implement short, medium and long-term measures to minimise the exposure to emergency situation.

#### **3.2 SHORT-TERM MEASURES**

3.2.1 The ASEAN Member States shall endeavour to establish the following short-term measures:

- (a) ASEAN Member State in Distress Emergency Response to Petroleum Supply Disruption
  - (i) During the critical shortage period, the ASEAN Member State in Distress will implement short-term measures to reduce the demand of its Normal Domestic Requirement before requesting assistance under the CERM.
  - (ii) Such emergency response may include, amongst others, Demand Restraint (recognizing the diversity and sovereignty of each ASEAN Member State), Fuel

Switching, Surge Protection and Information Sharing/e-trading;

- (b) Coordinated Emergency Response Measures (CERM)
  - (i) All ASEAN Member States shall endeavour to supply petroleum to the ASEAN Member State in Distress at the aggregate amount equal to ten percent (10%) of the Normal Domestic Requirement of the ASEAN Member State in Distress based on the terms and conditions to be negotiated among the appropriate parties in the spirit of assistance and no undue advantage shall be taken by the ASEAN Member States concerned;
  - (ii) The assistance rendered under CERM shall be on a voluntary and commercial basis, and
  - (iii) The details of the mechanism for the operationalisation of the CERM are set out in the Annex to this Agreement.

### **3.3 MEDIUM-AND LONG-TERM MEASURES**

- (a) ASEAN Energy Co-operation, which includes APG, TAGP, Regional Energy Policy and Planning (REPP), Coal, Renewable Energy, Energy Efficiency and Conservation;

- (b) Exploring for new petroleum resources, whereby interested or relevant parties of the ASEAN Member States may endeavour to participate on a commercial and voluntary basis in joint ventures to explore and develop petroleum resources particularly in deepwater and new frontier areas, both globally and regionally;
- (c) Energy Diversification and Improvement of Energy Efficiency include leveraging on the APG and TAGP, Fuel Switching to other alternative energy, joint Research Development & Demonstration (RD & D) in Renewable Energy, Energy Efficiency and New Energy Technologies;
- (d) Diversification of energy supply sources, whereby ASEAN Member States are to reduce the dependence on import from a single petroleum source;
- (e) Oil and Gas markets liberalisation, whereby ASEAN Member States recognize that the deregulation and liberalisation of petroleum industry would enhance the petroleum security by allowing more players into the playing field; and
- (f) Oil Stockpiling, whether individually or jointly by ASEAN Member States, shall be on a voluntary and commercial basis. The joint stockpiling may be commenced by ASEAN Member States who are ready and willing to make the commitments and cooperation.
